SUMMARY

Pre-Sales Engineer and Systems Integrator, specializing in tactical C2, situational awareness and battle-management systems for ground forces. Experienced in **leading POCs and product demonstrations for senior clients in Israel and around the world,** end-to-end system integration and delivery. Bridging customers, sales, and R&D.
Led around 20 POCs and client demonstrations in Israel and abroad Delivered 12 operational systems (around 1M ILS in delivered system value) with around 30 more systems in the pipeline.
Former combat soldier in the Duvdevan unit, multilingual (Hebrew, English, Russian) with a strong affinity for technology in general and drones in particular.

PROFESSIONAL EXPERIENCE

Pre-Sales Engineer and Systems Integrator | Asio Technologies *Jan 2026 - Nov 2026*

- Led **around 20 proof-of-concept (POC) deployments and product demonstrations** in Israel and abroad, including operational field deployment and an **independent multilingual (English and Russian)** POC for senior clients.
- **Owned end-to-end integration, testing, and calibration** of tactical ground systems - from production to operational delivery, **delivered 12 systems (around 1M ILS in system value)** with around 30 more in progress, managing and tracking system status and the delivery pipeline.
- Served as the technical link between the field, sales and product management, turning client requirements and field insights into joint responses and product roadmaps.
- **Proposed product features that were adopted by R&D** and supported QA: logged bugs in Azure DevOps and recommended fixes.
- Wrote user manuals, pocket guides and training decks in Hebrew, English and Russian for clients and for onboarding new sales and technical staff.
- Updated company applications using AI-assisted development (Cursor, Claude) and prepared GIS map layers (QGIS, GeoPackage, orthophotos) for the ORION system.

Combat Fitness Instructor | Pre-Military Fitness Training *2024 - 2026*

- Coached candidates in combat fitness and pre-enlistment preparation.

MILITARY SERVICE

Combat Soldier - Duvdevan Unit - fought in the Iron Swords War in the Gaza Strip, Lebanon, and Judea and Samaria.
Discharged as Sergeant First Class (Rasal) | 01/2022 - 05/2025

- Roles and qualifications: squad commander, drone operator, sniper, navigator, and company-level responsibility for weapons, drones, and team intelligence (NCO roles).
- Mentored and trained junior teams: drone operators, team intelligence NCOs and new navigators in the reserves.
- Reservist - casualty evacuation convoy navigator, Commando Brigade.

PROJECTS

- **Innovation Hub** - Founded a company-wide idea-management platform at Asio Technologies.
- **Flying Mink Drone Solutions** (flyingmink.com) - Drone education venture delivering drone workshops in schools, built the company website as a knowledge hub on drones.
- **Meguyas** (meguyas.com) - Interactive simulation of the Israeli military pathway, from age 16 through discharge.

EDUCATION

Double Major B.A. - Business Management (Entrepreneurship Track) and International Relations and Political Science
Tel Aviv University, Coller School of Management | First year, 2026 -

Full Matriculation (Bagrut)
5 units: Mathematics, Physics, English, Diplomacy, Arabic | GPA 107 | 2019 - 2022

SKILLS

Pre-Sales and Integration: POC leadership, client demonstrations, system integration, testing and calibration, delivery and customer training
Domain: Tactical C2, situational awareness, battle management, GIS (QGIS, GeoPackage, orthophotos, raster layers)
Drones: DJI and FPV piloting, 3D modeling, flight simulators (DCS, Liftoff)
Tools: Azure DevOps, Cursor (AI-assisted development), Claude, Android Studio (basics)

LANGUAGES AND ADDITIONAL

Languages: Hebrew (native), English (very good), Russian (good), Arabic (reading and writing)
